-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

# DETAILED ACTION

## *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Bond (5,421,224).

Bond discloses all of the limitations of claims 1, 6 and 11, i.e., a hand tool having two handles (72), each handle having first and second planar surfaces joined by inner and outer surfaces, and indicia (68) (69) located on the inner surface of at least one of said handles and indicating the type of said tool and wherein first and second handle portions pivotably connected to one another, each handle terminating in a tool head portion.

Wherein said indicia is located on the inner surface of both of said handles.

Bond also discloses that the indicia may be integrally formed on the handle or alternatively molded onto and raised from the handle meeting the limitations of claims 3, 9, 10 and 15.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

### ***Response to Arguments***

4. Applicant's arguments filed July 22, 2004 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., inner surface as defined in Fig. 1, e.g., surfaces of first and second handles facing each other) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Indicia (68) and (69) are considered to be on the "inner" surface as shown in Fig. 8 as opposed to an "outer" surface (e.g., on the other side) formed by planar surface (surfaces on either sides of the indicia), lacking any structures and/or limitations to define the surface otherwise. It is also noted, that the arguments regarding the advantages on placing the indicia

Art Unit: 3723

on an inner" surface as intended, e.g., Fig. 1, and/or placing the indicia on a "protected" surface is not persuasive with regards to indicia (70), since the indicia is clearly on a surface less susceptible to wear, however, this point is moot since as indicated claims as recited lack sufficient limitations to define the "inner" surface such that to read over prior art (Bond) as applied.
